

The ENAIRe Foundation will broadcast the aeronautical culture content of its partner organisations on the *ÁGORAdigital* platform

- It will soon stream the 1st International Congress marking the Centenary of the Great Flights of Spanish Aviation, as well as conferences on Women Pioneers in Aeronautics and on aerospace medicine dedicated to Emilio Herrera
- The ENAIRe Foundation continues to promote aeronautical culture through this new visual channel
- *ÁGORAdigital* was launched in late September with the broadcast of the *Innovative Air Mobility* event, where challenges related to drones and future prospects for the aerospace sector were discussed

Madrid, 15 October 2025

The ENAIRe Foundation will broadcast the aeronautical culture content of its partner organisations through the *ÁGORAdigital* platform. It will soon stream the first International Congress marking the Centenary of the Great Flights of Spanish Aviation, organised by the Spanish Air and Space Force in collaboration with the Tablada Centenary Association, as well as the conferences of the Aeronautical Federation of the Valencian Community (FACV) on Women Pioneers in Aeronautics, and those to be held at CIMA on Aerospace Medicine, dedicated to Emilio Herrera.

ÁGORAdigital promotes interaction among participants through its broadcasts every Tuesday from the Aeromuseum in Málaga and the Naves de Gamazo in Santander, and via the ENAIRe Foundation website, encouraging discussion and community building.

Democratisation of aeronautical history and culture

The ENAIRe Foundation is taking another step forward in the democratisation of aeronautical history and culture by broadcasting the International Congress marking the Centenary of the Great Flights of Spanish Aviation on the *ÁGORAdigital* platform, at the Aeromuseum in Málaga, at the Naves de Gamazo in Santander, and via its website.

ÁGORAdigital continues to establish itself as a visual benchmark for aeronautical culture: on 19 September it began broadcasting with the Innovative *Air Mobility* event; the upcoming streams will focus on the 1st International Congress marking the Centenary of the Great Flights, which explores the great feats of Spanish aviation throughout its history, the conferences of the Aeronautical Federation of the Valencian Community (FACV) on Women Pioneers in Aeronautics, and those to be held at CIMA on Aerospace Medicine, dedicated to Emilio Herrera.

The ENAIRe Foundation is a national benchmark in the fields of art and the promotion of aeronautical culture, enabling diverse audiences across Spain to take part in this tribute as an active community, not as isolated spectators.

"Our goal with *ÁGORAdigital* is to recreate the Greek agora in a modern format, creating a space for dialogue, shared reflection and collective learning that transcends geographical boundaries. Through the use of digital resources such as the streaming of conferences and debates on our aeronautical history and culture, we aim to establish a reference space for preserving and sharing knowledge, showcasing the values and potential of aeronautics, and finding inspiration", explains the ENAIRe Foundation's Managing Director, Margarita Asuar.

- *ÁGORAdigital* viewing locations of the ENAIRe Foundation:

Gamazo warehouses, Avda. Severiano Ballesteros s/n (Santander) and Málaga Aeromuseum, Plaza Pierre-Georges Latécoère s/n (Málaga).

About ENAIRE Foundation

Is a cultural institution of the Ministry of Transport and Sustainable Mobility that, in addition to managing, preserving and exhibiting the ENAIRE Collection of Contemporary Art, engages in a comprehensive annual programme of activities that focus on aeronautical art and culture. Notably, it is one of the institutions that currently provides the most support to photography through its annual prizes - which have become a benchmark for professional photographers - and by hosting exhibits.

It is the only foundation in Spain that combines the two seemingly disparate themes of art and aeronautical culture, bringing them together by undertaking a programme of activities that promote the study, research, knowledge and dissemination of aeronautical culture, integrating history and modernity to raise awareness of the world of aviation in our country.

The Naves de Gamazo are the first permanent home of the ENAIRE Collection of Contemporary Art, an example of collaboration between government agencies that was made possible thanks to the partnership and joint efforts of the Ministry of Transport and Sustainable Mobility, the Government of Cantabria, through the Office for Culture, Tourism and Sport, and the Port Authority of Santander, which share the operating expenses of the centre in order to ensure the present and future viability of this cultural project.

ENAIRE Foundation is implementing digital museum resources to boost the democratisation of art and make it accessible from anywhere in the world. These new museum resources are now available on the Foundation's website: <https://fundacionenaire.es>.

About ENAIRe

ENAIRe is the air navigation service provider in Spain.

As a company of the Ministry of Sustainable Transport and Mobility, it provides air traffic control services during the en route and approach phases of all flights to and from Spain and overflights. In addition, it manages communications, navigation and surveillance services from ENAIRe in the airspace and the entire AENA airport network in Spain and provides aerodrome air traffic control services in 21 airports, including the busiest.

ENAIRe is the fourth largest European air navigation service provider, and it is a member of international partnerships A6 Alliance, SESAR (Single European Sky ATM Research) Joint Undertaking, SESAR Deployment Manager, iTEC, CANSO (Civil Air Navigation Services Organisation) and collaborates closely with ICAO (International Civil Aviation Organization).

ENAIRe has received the highest score in Europe on the aviation safety key performance indicator for four years in a row. It has also been awarded the EFQM 600 Seal for its safe, efficient, innovative and sustainable management of air navigation services.
