Note. The total traffic registered by ENAIRE's network does not correspond to the sum of flights managed by each Control Centre (CC). This is due to the fact that a flight is registered according to the air space and route it crosses. For example: a flight that departs from Adolfo Suárez Madrid-Barajas Airport to Barcelona-El Prat is registered in the Madrid CC and the Barcelona CC.

About ENAIRE

ENAIRE is the company belonging to the Public Works Department that handles air navigation in Spain. It renders aerodrome control services at 21 airports, including the busiest in terms of air traffic, plus en-route and approach control, from five control centres: Barcelona, Madrid, Gran Canaria, Palma and Seville.

In 2018 ENAIRE operated 2.1 million flights to and from four continents (Europe, America, Asia and Africa), transporting 300 million passengers.

ENAIRE is the fourth most important European air traffic manager, and, in a clear commitment to the Single Sky initiative, belongs to international partnerships such as SESAR (Single European Sky ATM Research) Joint Undertaking, SESAR Deployment Manager, A6, iTEC, CANSO (Civil Air Navigation Services Organisation) and ICAO (International Civil Aviation Organisation).
