

## ENAIRe's Control Centre in Barcelona managed 110,407 flights in July, an increase of 1.6%

- Of the more than 110,000 flights, 81,501 were international
- The number of overflights totalled 11,013, an increase of 10.3%.
- Air traffic in the entire ENAIRe network is up 2%, with 220,719 flights in Spain, and the number of overflights rising 6% and domestic flights 5.4%

### 14 August 2019

ENAIRe's Control Centre in Barcelona managed a total of 110,407 flights in July 2019, 1.6% more than in the same period last year.

The number of international flights was 81,501, 0.1% higher than in July 2018. Domestic flights went up by 3.3% (17,893).

Overflights (those not flying to or from the East of the Spanish mainland) exhibited the highest growth in July at 10.3% (1,031 more than in the previous year).

This increase is mainly due to the alternative routes that ENAIRe is absorbing to mitigate the effects of the shortage of air traffic management capacity in some European countries. Spain, through ENAIRe and in coordination with EUROCONTROL, is taking over the management of additional flights diverted from alternative relief routes, thus helping to reduce the impact that delays in congested areas have on the European network as a whole.

### Eastern Region

ENAIRe's Air Control Centre in Barcelona manages a 300,000-square-kilometre airspace comprising Catalonia, Valencia, and parts of the regions of Murcia and Aragon; as well as a large area of Spanish Mediterranean territorial waters. The Barcelona and Valencia terminal areas (TMA) fall within its radius.
