

World ATM Congress 2021

ENAIRe and DSNA France sign a memorandum of understanding on aeronautical information at the World ATM Congress

- This is an important step in creating processes to ensure quality and consistency in the aeronautical information published by Spain and France

27 October 2021

Enrique Maurer, ENAIRe's Air Navigation Services Director, and Geoffroy Ville, Deputy COO of DSNA France (Direction des Services de la Navigation Aérienne), signed a memorandum of understanding (MoU) on aeronautical information at the World ATM Congress, which was opened yesterday in Madrid.

Among other aspects, the AIS MoU identifies the geographical area and the aeronautical entities of mutual interest to both countries, and sets out a process for coordinating modifications to these entities prior to their publication in amendments to the respective AIPs (Aeronautical Information Publications).

It also defines a process for identifying and solving inconsistencies in the data of both AIPs, as well as an agreement to update the common data in the EUROCONTROL EAD database.

It should be noted that the AIS MoU represents an important step in formalising the process of ensuring the quality and coherence of the information published by both countries.

PRESS RELEASE

About ENAIRE

ENAIRE is the air navigation service provider in Spain.

As a company of the Ministry of Transport, Mobility and the Urban Agenda, it provides en route control services for all flights and overflights from five control centres in Madrid, Barcelona, Seville, Gran Canaria and Palma, as well as approach services to every airport in the country.

In addition, 45 control towers receive ENAIRE's communication, navigation and surveillance services, and 21 airports, including the country's busiest, rely on its aerodrome control services.

ENAIRE is the fourth most important European air navigation service provider, and, in a clear commitment to the Single Sky initiative, belongs to international partnerships such as SESAR (Single European Sky ATM Research) Joint Undertaking, SESAR Deployment Manager, A6, iTEC, CANSO (Civil Air Navigation Services Organisation) and ICAO (International Civil Aviation Organization).

ENAIRE is the official provider of aeronautical information in Spain.
