Note. The total traffic registered by ENAIRe's network does not correspond to the sum of flights managed by each control centre (CC). This is because each CC records a flight depending on the route and airspace it crosses, but that flight is only counted once in the ENAIRe network as a whole. For example: a flight departing from Adolfo Suárez Madrid-Barajas Airport bound for Josep Tarradellas Barcelona-El Prat will be registered in both the Madrid and Barcelona CC, but only once in the network.

Record in the first weekend of May

In addition, the first weekend of May started off with a number of flights managed similar to summertime: 7,065 on Saturday the 4th and 6,999 on Sunday the 5th, which was a new record for ENAIRe.

Cumulative data for 2024

In the first four months of the year, ENAIRe managed over 670,000 flights (672,442), 9.2% more than in the same period in 2023.

International flights from January to April (370,199) increased by 11.3%, overflights (158,318) by 7.4%, and domestic flights (143,925) by 6.0%.

The cumulative data for the year also show that all ENAIRe control centres registered an increase in the number of flights managed: Seville, 159,999 flights managed, 10.8% more than in 2023; Barcelona, 290,197, +10.2% more; the Canary Islands, 138,381, +9.1%; Madrid, 391,735, +8.8%; and Palma, 72,659, +2.9%.
